It’s Bigger In The Bahamas

Since 1986,潜水Diving Magazine has an
record thousands of marine species, many of which to
dominate the aquatic life of the Bahamas, including the Redfish, Carlin, and Blue Marlin. Year-round, the
The Islands of the Bahamas offer fantastic diving opportunities for all levels of divers. The Bahamas is divided into the following categories:
- Blue Holes and Caverns
- Liveaboards and Splendid World-class Drop-Offs
- Wreck Diving

The Bahamas offers an incredible diversity of marine life, with over 700 species of fish and 400 species of coral. The water is typically warm, ranging from 75-85°F (23-29°C) depending on the season. The visibility is usually excellent, with many sites offering clear water up to 100 feet. The Bahamas is home to a variety of marine life, including many species of sharks, rays, and whales. The Bahamas is a popular destination for diving enthusiasts from all over the world.
It’s Bigger Down Here

A different kind of escape occurs at a site called ‘Brandi’s Wreck’. The wreck sits at a depth of 90 feet, but you can see more than you can imagine. The wreck’s name suggests what you will see, as it’s a shipwreck that was once a drilling platform.

THE OCEAN AT ITS BEST

The ocean at its best is found in the Bahamas. The range of marine species is vast and diverse, with more than 1,000 species of fish alone. You’ll see everything from colorful tropical fish to massive species like the hammerhead shark and the great white.

Wreck Diving

Wreck diving is a popular activity in the Bahamas, with more than 1,000 wrecks scattered throughout the islands. The wrecks vary in size and depth, offering a range of diving experiences. Some are shallow enough for snorkeling, while others are deep enough for scuba diving.

The Great Barrier Reef

The Great Barrier Reef is one of the most iconic underwater wonders in the world. It’s made up of thousands of individual reefs and is home to an incredible variety of marine life. The reef is located off the coast of the Bahamas and is a must-see for any diver or snorkeler.

Coral Reefs

The Bahamas has some of the best coral reefs in the world. The colors are always changing and the views are stunning. The reefs offer a range of diving experiences, from shallow to deep, and are home to a variety of fish and other marine life.

Sharks

Sharks are a common sight in the Bahamas, with species like the hammerhead and the great white. The Bahamas is home to some of the largest and most diverse shark populations in the world, offering a unique opportunity to see these magnificent creatures up close.

Whale Sharks

Whale sharks are another common sight in the Bahamas, with sightings reported throughout the year. They are the largest fish in the world, reaching lengths of up to 40 feet, and are a treat to see up close.

Snorkeling

Snorkeling is a popular activity in the Bahamas, with many sites offering incredible views and easy access. The crystal-clear waters and warm temperatures make it a perfect activity for all ages.

Scuba Diving

Scuba diving is a popular activity in the Bahamas, with many operators offering a range of diving experiences. From shallow reefs to deep wrecks, the Bahamas has something for every diver.
